EXPERIENCE

Tata Technologies   **(Link)**
Software Developer Intern   July 2023 - August 2023

- Created an Online Portal named **Knowledge Asset Management** which serves as a digital portal where user can seamlessly upload and acces data in format of document.
- This portal offers a dual-tiered login interface encompassing individual user access followed by admin access.
- This portal is now actively **utilized by over 50 dedicated employees of the company.**

PROJECTS

Driving License App   Project Link

- Designed, developed, and meticulously tested a web-based application leveraging the **MERN** stack, enabling streamlined user onboarding, secure authentication, and seamless administration of an online driving assessment exam. Successfully deployed and trialed with over **200** users, guaranteeing robust functionality and reliability. Additionally, implemented a feature allowing users to conveniently download their driving license upon successful completion.

Code Editor   Project Link

- Built a scalable Code Editor from scratch where a user can code in **Html,Css,JavaScript** and the output of the code is displayed below.

ACCOMPLISHMENTS
